- Transport between the following locations will be arranged by SOREC :
 - Casablanca airport – Hotel
 - Hotel – Racecourse
 - Hotel – Training Centre
 - Hotel – Gala Dinner

HEALTH & Customs Formalities

For the temporary admission of horses participating in the Morocco International Meeting, the transit formalities and the main documents to be prepared are :

1. Health record :

Health certificate and laboratory analysis :

All horses must have a veterinary health certificate validated by the official veterinary service, and originals of test reports from the laboratory.

For most European countries, with which we have sanitary agreements, there are two analysis that are requested :

- The test of Equine Infectious Anemia (Coggins test within 30 days of loading);
- The test of Equine Viral Arteritis at the intervals indicated ; within 21 days (Spain) or 28 days (France) of loading (Serum neutralisation test).

For horses regularly vaccinated against this disease, a second test within minimum 14 days is required.

Additional analysis may be requested, under certain conditions :

- Dourine (the complement fixation test) 10 days before boarding;
- Glanders (the complement fixation test) 10 days before boarding.

Vaccination :

Horses must be properly vaccinated against two diseases :

- Equine influenza
- Equine Viral Rhinopneumonitis

2. Customs formalities :

All horses and equipment must be recorded in an ATA carnet, available at chambers of commerce. The ATA Carnet is obligatory because it allows to dispense with taxes and the deposit of the import bond. The conveyance must be equipped with the «MA authorization» available at the transport department. If this conveyance is included in the ATA carnet, this authorization may not be requested. It is strongly recommended that copies of the documents be forwarded in advance to freight forwarders and / or the organization, to ensure validity and to provide control and transit in the best conditions. Facilities and assistance will be put in place at the border post in order to ensure a smooth transit.
